

BDA Club Affiliation

The British Dragon Boat Racing Association (BDA) has the ability for Clubs to affiliate themselves to us to enjoy a range of benefits. Those benefits are listed in the table over the page.

The main offering is **Club Affiliation**. This allows a club to take advantage of insurance, as well as a number of other benefits from being associated with the BDA. If a club then wishes to participate with one crew in any class in the National League or National Championship they can add on to their club affiliation for an additional cost of £100. Additional crew entries can then also be paid for at £100 per crew.

By separating out Racing from club affiliation clubs can associate themselves with the BDA, without having to participate or pay to enter BDA Competitions if they don't want to.
